

Olympic Connect Dashboard Reporting

METRICS FOR 10/01/2024 –10/31/2025

 A Service of Olympic Community of Health | A Community Care Hub of Washington

Overview of Metrics

10/01/2024 – 10/31/2025

The current report includes the following (1/3):

- “Year-to-date” = 10/01/2024 – 10/31/2025
- **Incoming Referrals**
 - Overall numbers of incoming referrals; by month and county.
 - Conversion from referral to enrollment.
- **Enrollment**
 - Overall enrollment, cumulative (year-to-date) and by month.
 - Demographics of those enrolled year-to-date.

The current report includes the following (2/3):

- **Connections to Services**
 - Time from referral to first outreach, discharge.
 - Percentage of those enrolled with an intake assessment complete.
 - Connections to services within 7 and 30 days.
- **Social Determinants of Health Assessment**
 - Frequency of Social Needs.
 - Frequency of Health Needs.
- **Resource Referrals**
 - Overall resource referrals, cumulative and by month; by service category.
 - Percentage of closed-loop resource referrals; by service category.

The current report includes the following (3/3):

- **Caseloads**
 - Average monthly caseload for each Care Coordination Partner; regional monthly caseload average
- **Client Satisfaction at discharge**
 - The percent of clients who indicated “yes” they were satisfied with services during their Discharge assessment.
- **Client Needs Met at discharge**
 - The percent of clients who indicated “yes” their needs were met during their Discharge assessment.

Incoming Referrals

10/01/2024 – 10/31/2025

● ● ● Incoming Referrals

- **Graph 1** – Incoming Referrals: Progress towards Goals
- **Graph 2** – Incoming Referrals Year-to-Date
- **Graph 3** – Incoming Referrals: County (by month)
- **Graph 4** – Incoming Referrals: County (cumulative)
- **Graph 5** – Incoming Referrals: PAEG (by month)
- **Graph 6** – Incoming Referrals: PAEG (cumulative)
- **Graph 7** – Incoming Referrals: How did you hear about Olympic Connect?
- **Graph 8** – Incoming Referrals: How did...: by County, PAEG age range
- **Graph 9** – Incoming Referrals and Enrollment Year-to-Date

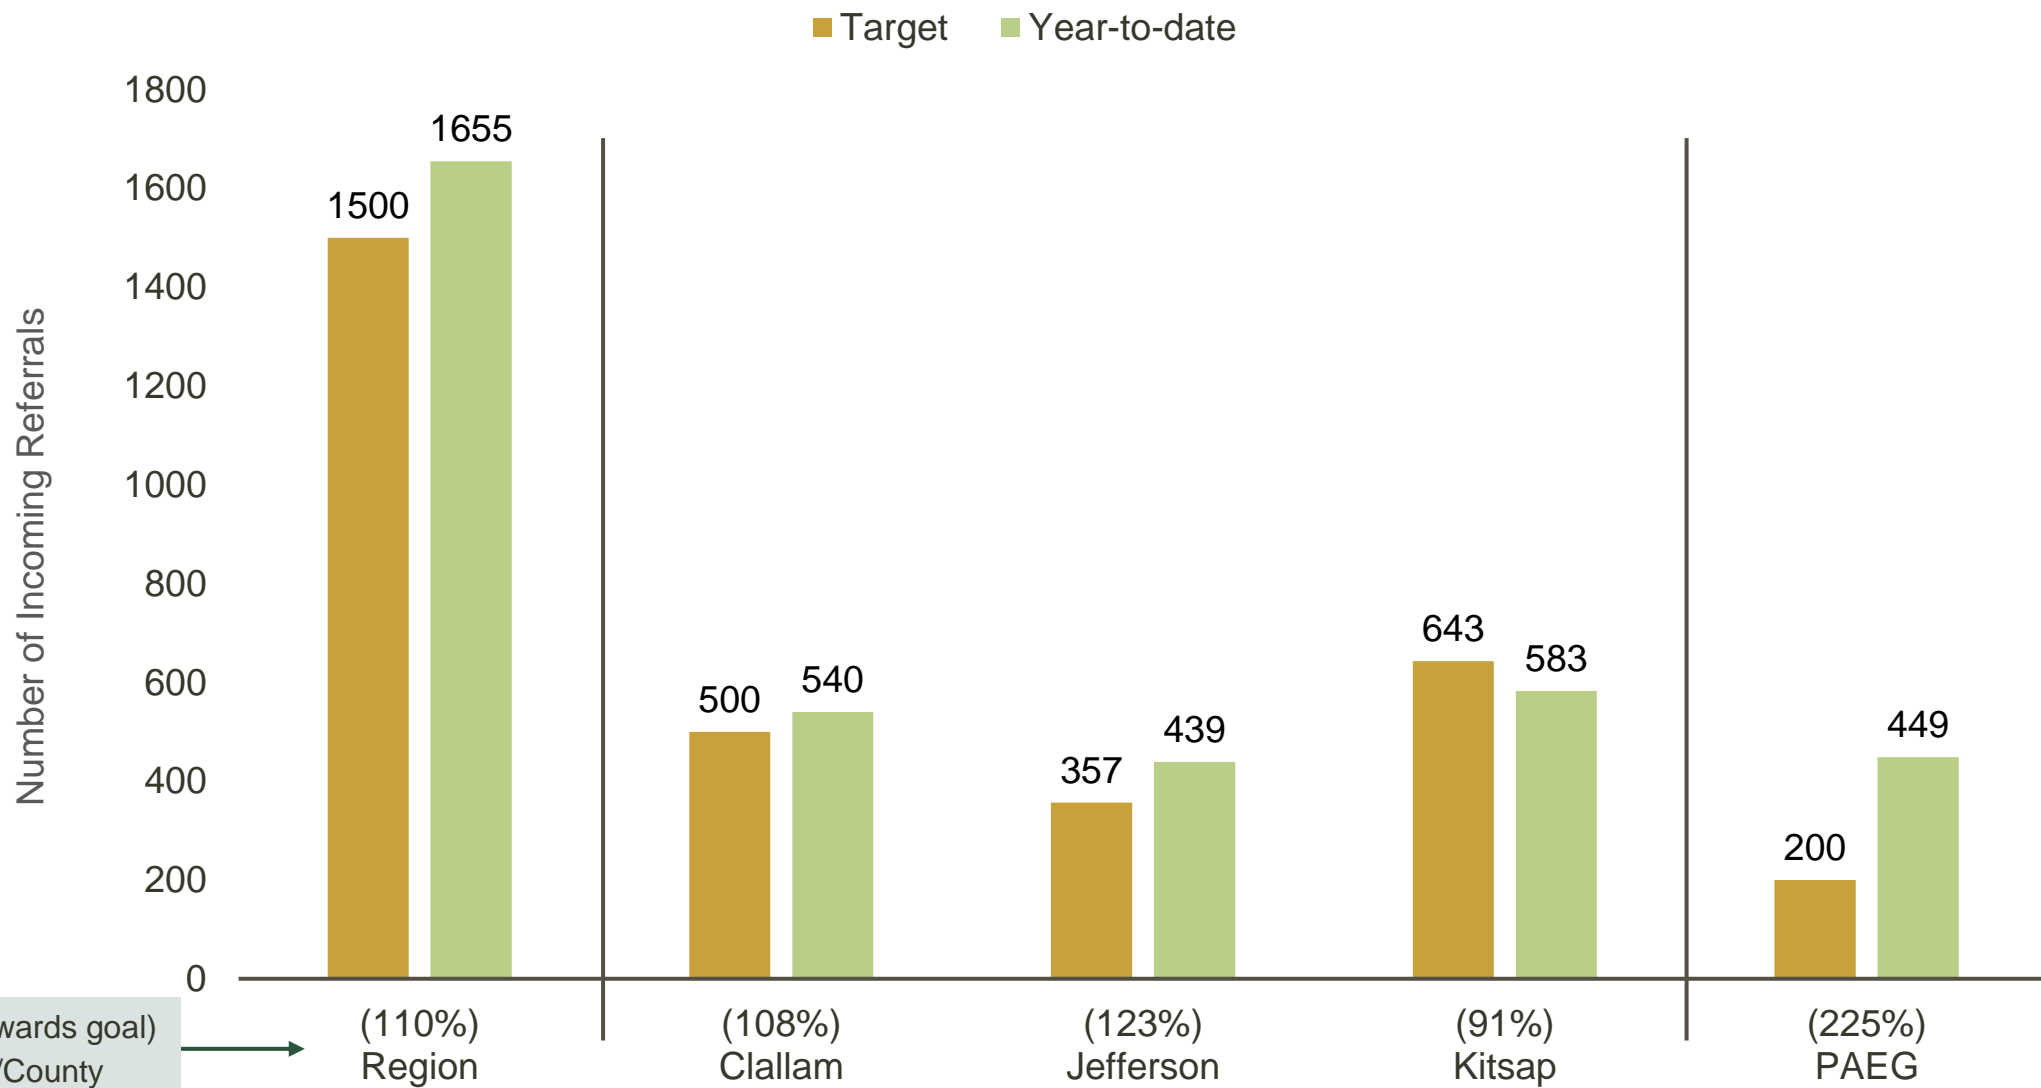

Incoming Referrals: Progress towards Goals

Metric	Explanation
Target	<ul style="list-style-type: none">• The goal for number of incoming referrals for a given year<ul style="list-style-type: none">• Overall (for the entire region)• County (for that specific county)
Year-to-date	<ul style="list-style-type: none">• The total number of incoming referrals, 10/01/2024 – 10/31/2025<ul style="list-style-type: none">• Overall (for the entire region)• County (for that specific county)

Graph 1

Incoming Referrals: Progress Towards Goals

10/01/2024 - 10/31/2025 | Region, County, PAEG

(percent towards goal)
Region/County

Incoming Referrals Year-to-Date

Metric	Explanation
Goal	<ul style="list-style-type: none">The goal for number of incoming referrals for a given year (1,500)
Cumulative	<ul style="list-style-type: none">The cumulative number of incoming referrals
by Month	<ul style="list-style-type: none">The number of incoming referrals for each month (<i>not</i> cumulative)

Graph 2

Incoming Referrals Year-to-Date

10/01/2024 - 10/31/2025

Goal Cumulative by Month

Incoming Referrals: County (by month)

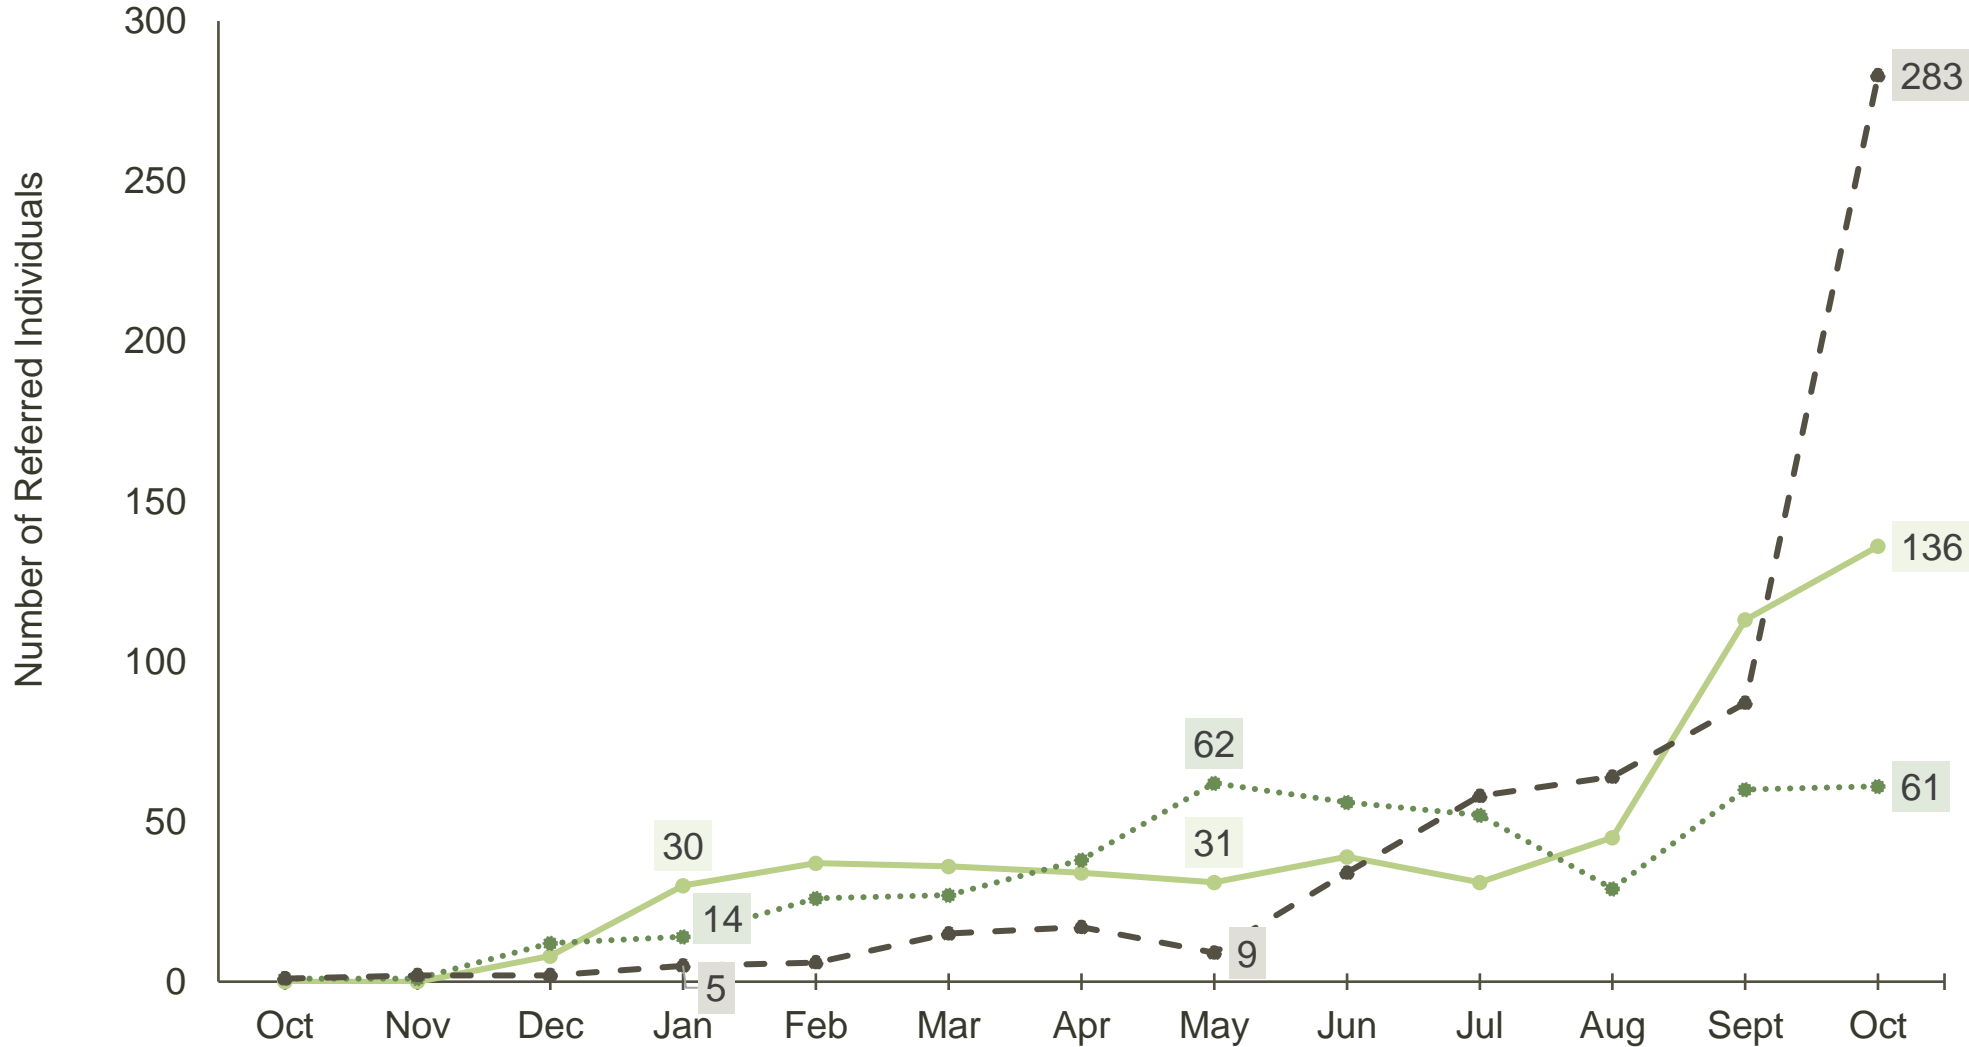

Metric	Explanation
by Month	<ul style="list-style-type: none">• The monthly number of incoming referrals for each month, by County (<i>not</i> cumulative).<ul style="list-style-type: none">• These are based on the County of the client referred (where they indicated they live).

Graph 3

Incoming Referrals: County (by month)

10/01/2024 - 10/31/2025

—●— Clallam ···●··· Jefferson - -●- - Kitsap

Cumulative year-to-date:

- Clallam: 540
- Jefferson: 439
- Kitsap: 583

Incoming referral goals:

- Clallam = 500
- Jefferson = 357
- Kitsap = 643

Incoming Referrals: County (cumulative)

Metric	Explanation
by Month	<ul style="list-style-type: none">• The monthly <i>cumulative</i> number of incoming referrals for each month, by County.<ul style="list-style-type: none">• These are based on the County of the client referred (where they indicated they live).

Graph 4

Incoming Referrals: County (cumulative)

10/01/2024 - 10/31/2025

—●— Clallam ···●··· Jefferson -●- Kitsap

Incoming referral goals:

- Clallam = 500
- Jefferson = 357
- Kitsap = 643

The total across all three counties adds up to 1,562 (instead of 1,655) as some referrals came into Olympic Connect for clients who live in other counties.

Incoming Referrals: PAEG (by month)

Metric	Explanation
by Month	<ul style="list-style-type: none">The monthly number of incoming referrals for each month, by PAEG (<i>not</i> cumulative).

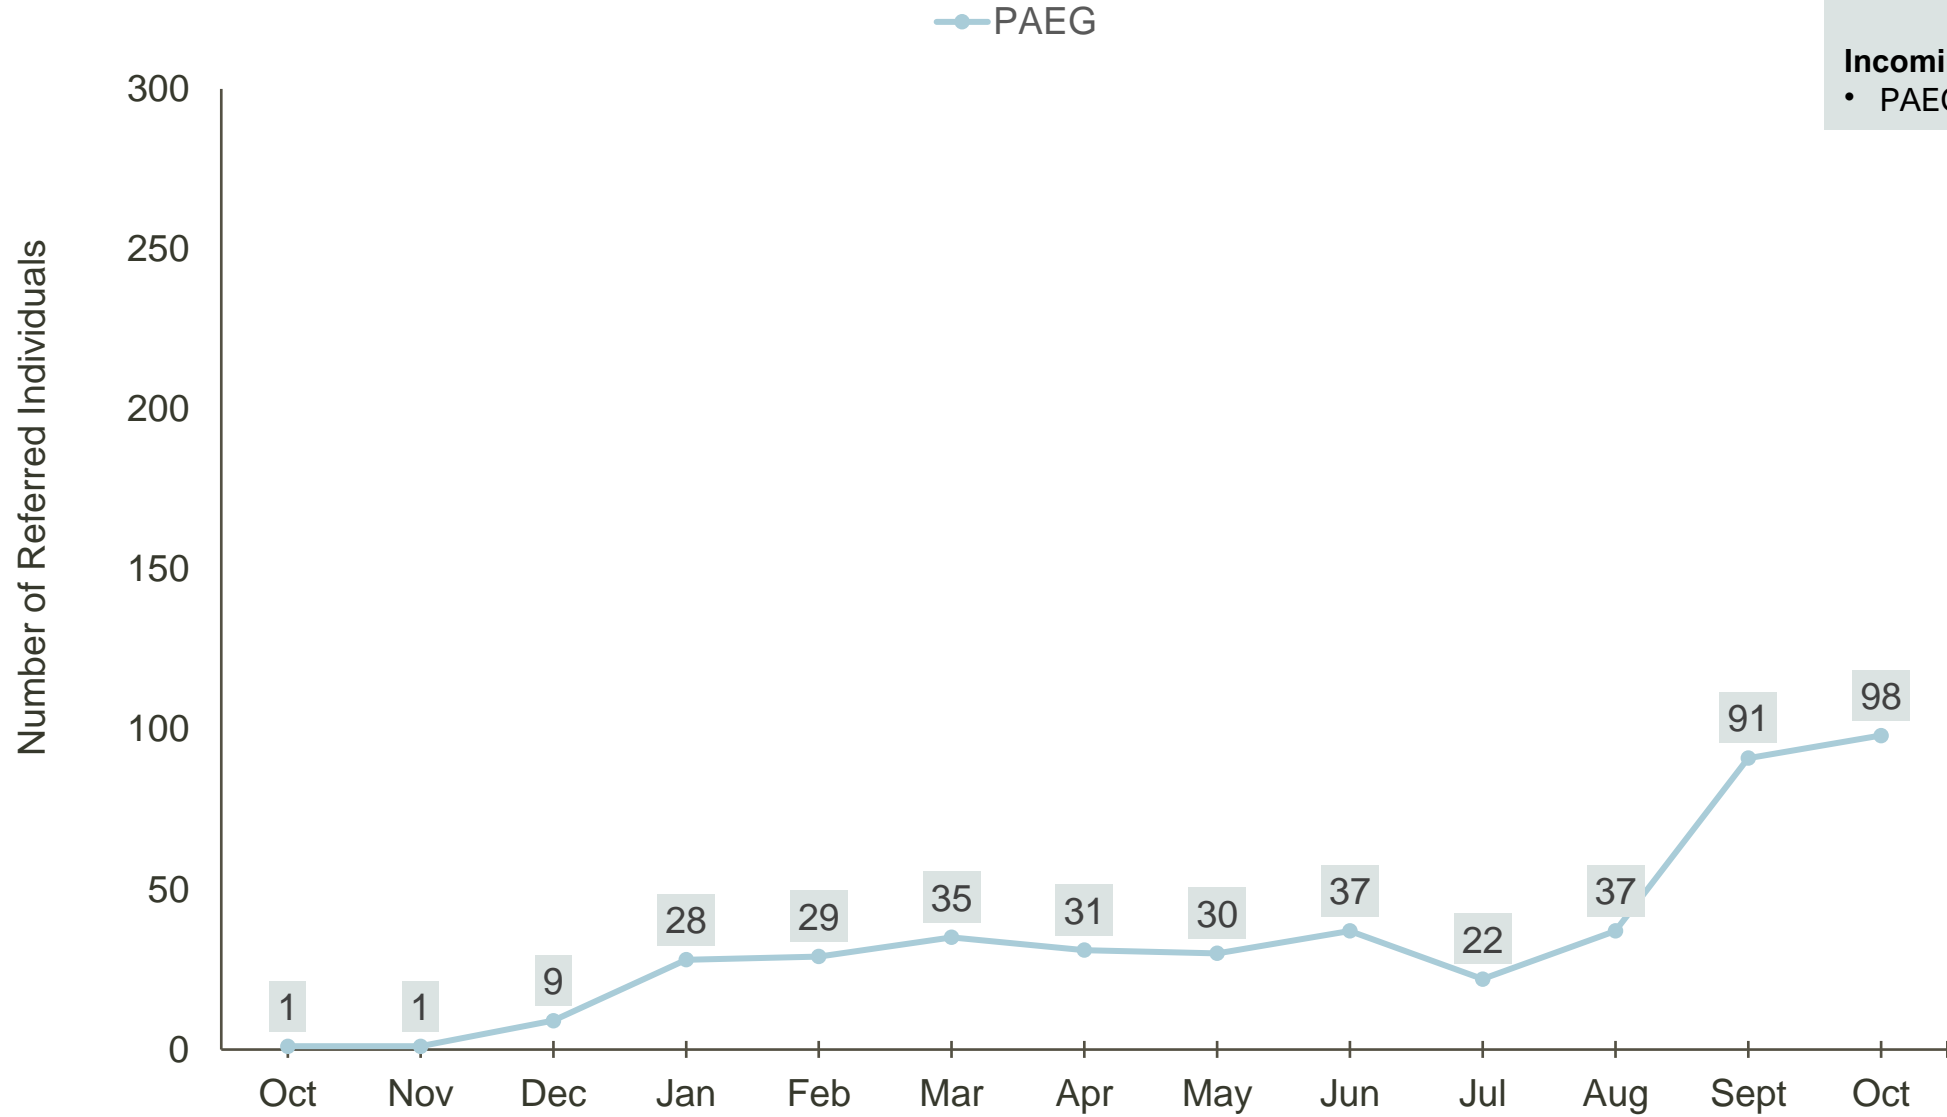

Graph 5

Incoming Referrals: PAEG (by month)

10/01/2024 - 10/31/2025

Cumulative year-to-date:
• PAEG: 449

Incoming referral goals:
• PAEG: 200

Incoming Referrals: PAEG (cumulative)

Metric	Explanation
by Month	<ul style="list-style-type: none">The monthly <i>cumulative</i> number of incoming referrals for each month, by PAEG.

Graph 6

Incoming Referrals: PAEG (cumulative)

10/01/2024 - 10/31/2025

PAEG

Incoming referral goals:
• PAEG: 200

Incoming Referrals: How did you hear about Olympic Connect?

Metric	Explanation
How they heard	<ul style="list-style-type: none">• Percent of incoming referral clients who heard about Olympic Connect in different ways.• Note: this metric is for 10/01/2024 – 09/30/2025

Incoming Referrals: How did you hear about Olympic Connect?

10/01/2024 - 09/30/2025

Incoming Referrals: How did you hear about Olympic Connect?

Metric	Explanation
How they heard	<ul style="list-style-type: none">• Percent of incoming referral clients who heard about Olympic Connect in different ways.• Broken down by:<ul style="list-style-type: none">• County• Prime Age Employment Group (PAEG) age range (25-54)• Note: this metric is for 10/01/2024 – 09/30/2025

Graph 8

Incoming Referrals: How did you hear about Olympic Connect?

10/01/2024 - 09/30/2025 | County, PAEG Age Range

Incoming Referrals and Enrollment Year-to-Date

Metric	Explanation
Referrals	<ul style="list-style-type: none">• Number of incoming referrals each month.• This metric is <i>not</i> cumulative.
Enrollments	<ul style="list-style-type: none">• Number of enrollments each month.• This metric is <i>not</i> cumulative.

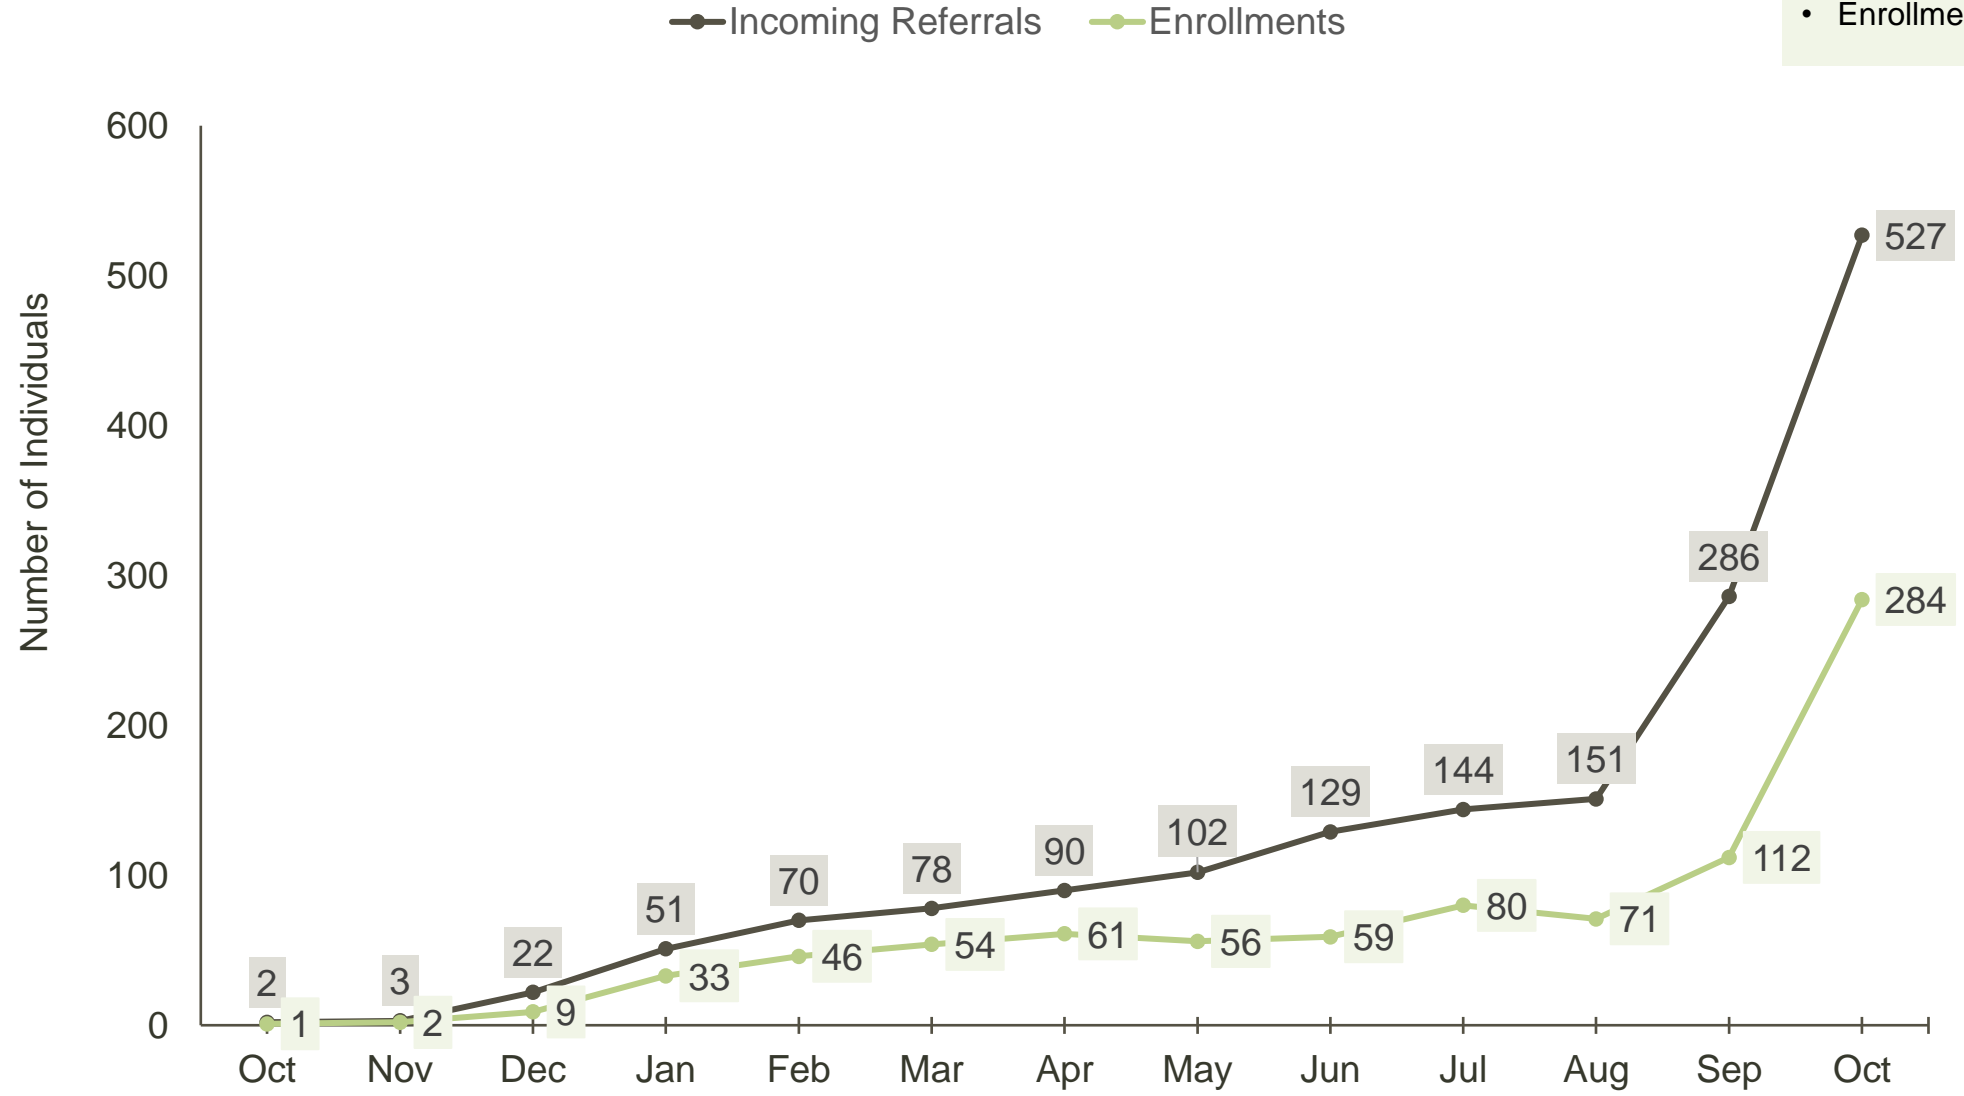

Graph 9

Incoming Referrals and Enrollments Year-to-Date

10/01/2024 - 10/31/2025 | Monthly (non-cumulative)

Cumulative numbers:

- Incoming referrals = 1,655
- Enrollments = 868

Enrollment

10/01/2024 – 10/31/2025

● ● ● Enrollment

- **Graph 10** – Enrolled Year-to-Date: Overview
- **Graph 11** – Enrollment Year-to-Date
- **Graph 12** – County Progress towards Enrollment Goals
- **Graph 13a-13f** – Enrollment Year-to-Date: Demographics

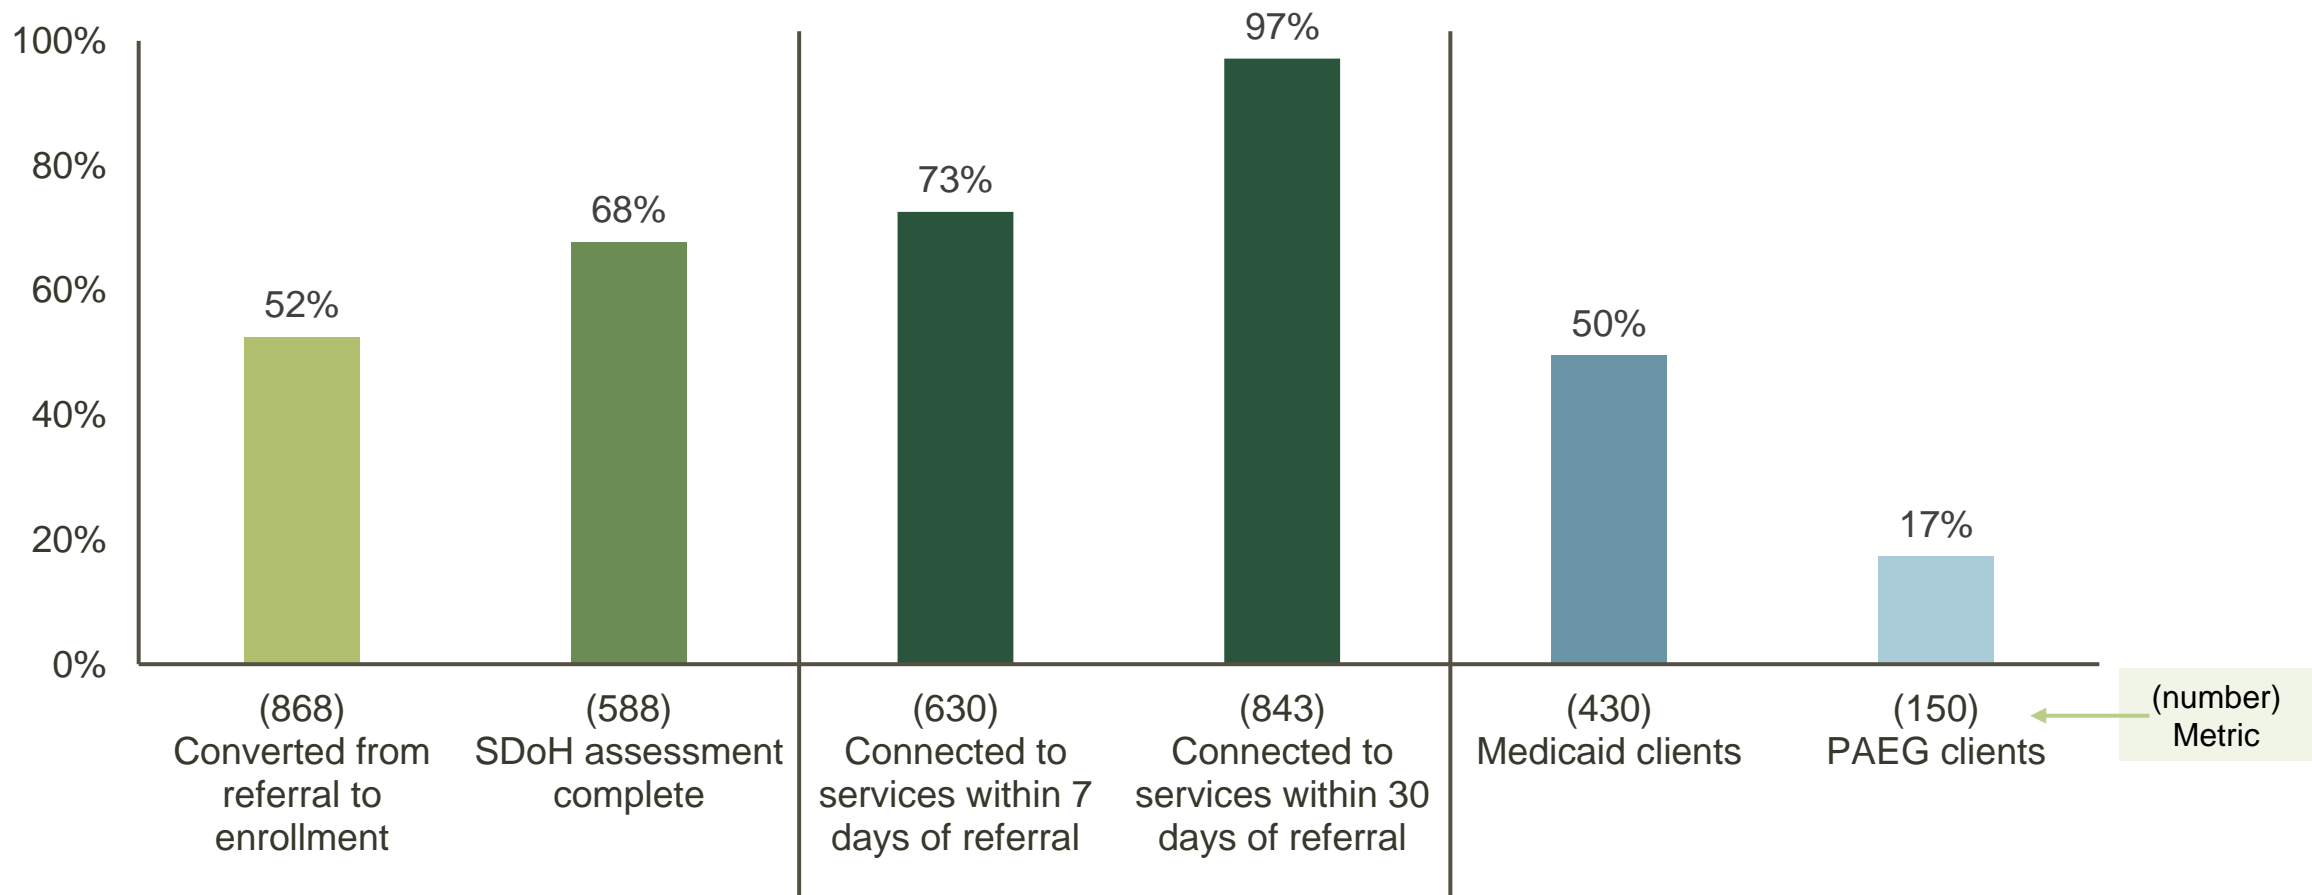

Enrolled Year-to-Date: Overview

Metric	Explanation
Converted from referral to enrollment	<ul style="list-style-type: none"> Of those referred, how many (what %) enrolled?
SDoH assessment complete	<ul style="list-style-type: none"> Of those enrolled, how many (%) had a Social Determinants of Health (SDoH) assessment completed?
Connected to services within 7 or 30 days of referral	<ul style="list-style-type: none"> Of those enrolled, how many (%) were connected to services within 7 or 30 days of their initial referral?
Medicaid clients	<ul style="list-style-type: none"> Of those enrolled, how many (%) have an insurance status of Medicaid? Note: This is based on client self-report.
PAEG clients	<ul style="list-style-type: none"> Of those enrolled, how many (%) were PAEG Eligible? PAEG = Prime Age Employment Group (25-54 and un- or under-employed in Clallam and Jefferson Counties).

Graph 10

Enrolled Year-to-Date: Overview

10/01/2024 - 10/31/2025 | Total Enrolled = 868 | Total Referred = 1,655

For *Converted from referral to enrollment*, the denominator is the total number referred ($n= 1,655$). For the rest of the metrics, the denominator is the total number enrolled ($n= 868$). The numerator is in parentheses above each metric label.

Enrollment Year-to-Date

Metric	Explanation
Goal	<ul style="list-style-type: none">• The goal for number of enrollments for a given year (1,000).
Cumulative	<ul style="list-style-type: none">• The cumulative number of enrollments, year-to-date.
by Month	<ul style="list-style-type: none">• The number of enrollments for each month (<i>not</i> cumulative).

Graph 11

Enrollment Year-to-Date 10/01/2024 - 10/31/2025

Goal Cumulative by Month

County Progress towards Enrollment Goals

Metric	Explanation
County Progress towards Enrollment Goals	<ul style="list-style-type: none">• Overall enrollment by county (percent toward that county's annual goal) year-to-date.<ul style="list-style-type: none">• Each county has a specific enrollment target.• The graph shows the percent (and associated number, $n = ###$) towards those enrollment goals.• The color gradient shows how close they are to enrollment goals, at a glance.

Graph 12

County Progress towards Enrollment Goals

10/01/2024 - 10/31/2025 | Total Enrolled = 868

Missing or other County: $n = 49$

% to Annual Goal

100%

0%

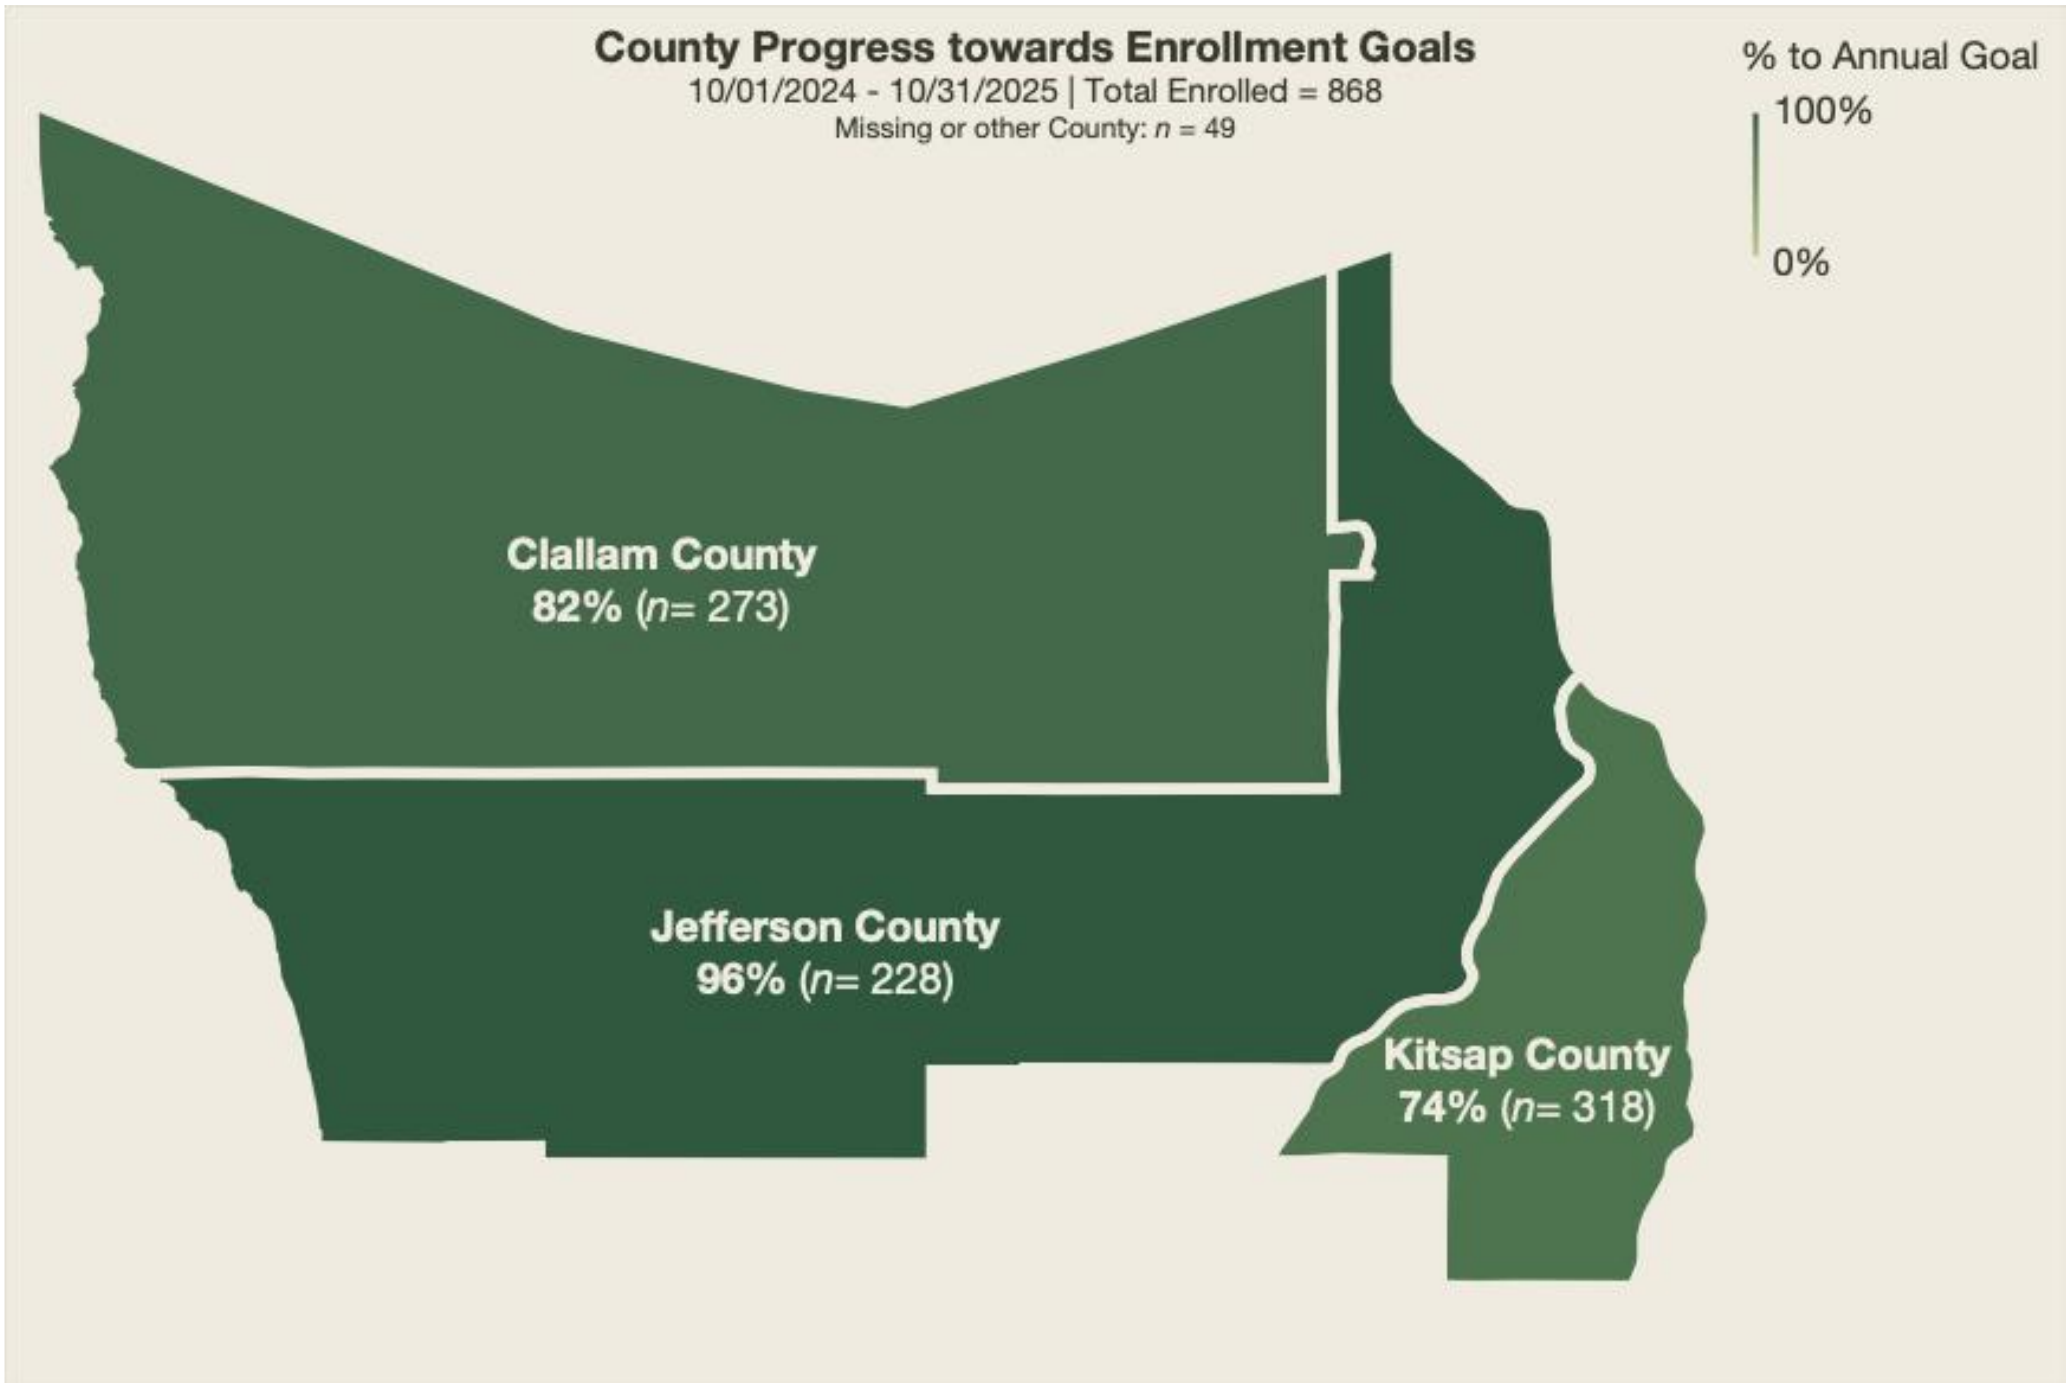

County enrollment goals:

- Clallam = 334
- Jefferson = 238
- Kitsap = 428

Clallam County
82% ($n = 273$)

Jefferson County
96% ($n = 228$)

Kitsap County
74% ($n = 318$)

Enrollment Year-to-Date: Demographics

	Metric	Explanation
13a	Age	<ul style="list-style-type: none"> Age groups of those enrolled year-to-date: 0-19, 20-64, and 65+.
13b	Sex	<ul style="list-style-type: none"> Sex of those enrolled year-to-date: Male, Female, and Unspecified.
13c	County	<ul style="list-style-type: none"> County of those enrolled year-to-date.
13d	Insurance Status	<ul style="list-style-type: none"> Insurance of those enrolled year-to-date (highlighting Medicaid, a priority population).
13e	Race-Ethnicity	<ul style="list-style-type: none"> Race/ethnicity of those enrolled year-to-date.
13f	Language	<ul style="list-style-type: none"> Language of those enrolled year-to-date.

How to read Demographics graphs:

Age of those Enrolled Year-to-Date

10/01/2024 - 10/31/2025 | Total Enrolled = 868

Graph 13a

Age of those Enrolled Year-to-Date

10/01/2024 - 10/31/2025 | Total Enrolled = 868

Graph 13b

Sex of those Enrolled Year-to-Date

10/01/2024 - 10/31/2025 | Total Enrolled = 868

***Unspecified includes:** missing/unknown ($n = 266$), prefer not to answer ($n = 2$), and other ($n = 15$).

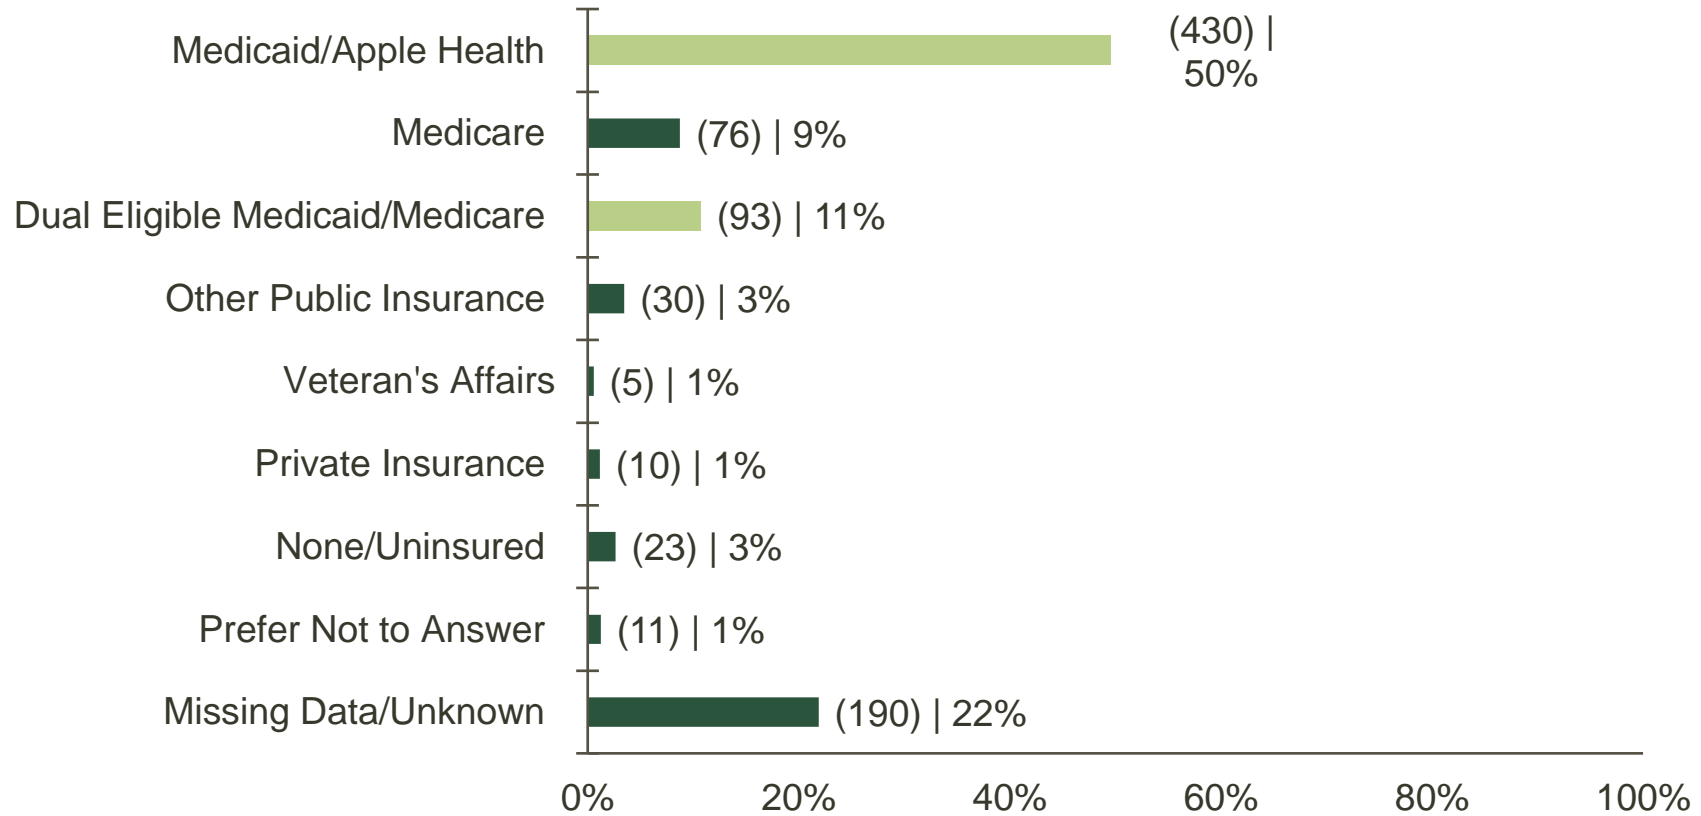

County of those Enrolled Year-to-Date

10/01/2024 - 10/31/2025 | Total Enrolled = 868

Insurance Status of those Enrolled Year-to-Date

10/01/2024 - 10/31/2025 | Total Enrolled = 868

Race/Ethnicity of those Enrolled Year-to-Date

10/01/2024 - 10/31/2025 | Total Enrolled = 868

Graph 13f

Language of those Enrolled Year-to-Date

10/01/2024 - 10/31/2025 | Total Enrolled = 868

Count adds up to ?? because ?? respondents indicated two languages.

Connections to Services

10/01/2024 – 10/31/2025

● ● ● **Connections to Services**

- **Graph 14** – Average Time from Referral to First Outreach
- **Graph 15** – Average Time from Referral to First Outreach: Percent within 7 Days
- **Graph 16** – Average Time from Referral to Discharge

Average Time from Referral to First Outreach

Metric	Explanation
Overall	<ul style="list-style-type: none">The overall (year-to-date) average time from <i>referral</i> to <i>first outreach attempt</i>.Target: within 7 days.
by Month	<ul style="list-style-type: none">The monthly average time from <i>referral</i> to <i>first outreach attempt</i>.Target: within 7 days.

Note: The “Overall” average time from *referral* to *first outreach* is higher than any of the monthly averages because of how it is calculated:

- For October, both the *referral* and the *first outreach* had to be within the month of October. That means that if someone was *referred* on October 21st and their first outreach attempt wasn't until November 14th, the 24 days between *referral* and *first outreach* for that client are not included in the calculation for either October or November. If that was included in the monthly calculation, it would pull the average number of days from *referral* to *first outreach* up for that month.
- Because of the above, “monthly” averages of “time from *referral* to *first outreach*” may always be lower than the “overall” yearly average. It is recommended to use the “overall” yearly average to understand the true average time from *referral* to *first outreach*.

Graph 14

Average Time from *Referral to First Outreach*

10/01/2024 - 10/31/2025 | Overall, Monthly

Average Time from Referral to First Outreach: Percent within 7 Days

Metric	Explanation
Overall	<ul style="list-style-type: none"> The percentage of cases year-to-date whose average time from <i>referral</i> to <i>first outreach attempt</i> was within 7 days. Target: 90% within 7 days <ul style="list-style-type: none"> The light green bars show where the target was met; dark green show where it was not met.
by Month	<ul style="list-style-type: none"> The percentage of cases for that specific month whose average time from <i>referral</i> to <i>first outreach attempt</i> was within 7 days. Target: 90% within 7 days <ul style="list-style-type: none"> The light green bars show where the target was met; dark green show where it was not met.

Note: The “Overall” ‘time from *referral* to *first outreach*: percent within 7 days’ is lower than any of the monthly averages because of how it is calculated:

- For October, both the *referral* and the *first outreach* had to be within the month of October. That means that if someone was *referred* on October 21st and their first outreach attempt wasn’t until November 14th, that this was 24 days between *referral* and *first outreach* for that client is not included in the calculation for either October or November. If that was included in the monthly calculation, it would pull the “percentage within in 7 days” down for that month.
- Because of the above, monthly “percent within 7 days” for time from *referral* to *first outreach* may always be higher than the “overall” yearly average. It is recommended to use the “overall” yearly average to understand the true average time from *referral* to *first outreach*.

Graph 15

Time from *Referral to First Outreach*: Percent within 7 Days

10/01/2024 - 10/31/2025 | Overall, Monthly

Average Time from Referral to Discharge

Metric	Explanation
Referral to discharge	<ul style="list-style-type: none">• The overall average time from initial <i>referral</i> into Olympic Connect to <i>discharge</i> from Olympic Connect.
Mean, Median, Range	<ul style="list-style-type: none">• Target: within 6 months

Average Time from *Referral* to *Discharge*

10/01/2024 - 10/31/2025

Social Determinants of Health Assessment
